HANDLING
SOLUTIONS**

Three Machines In One! Forklift, Sideloader and Aisle Truck.

Space saving solutions. Discover how CombiLift can increase space utilization by as much as **100%**!

Aisle-Master Series

Aisle-Master Series

The uniquely designed Aisle-Master is capable of doing the work of both conventional counterbalance forklifts and reach trucks, with the flexibility to work in very narrow aisles. The hydrostatic drive provides greater reliability and reduced maintenance costs.

The Aisle-Master is available in both Gas/LPG and electric/battery powered engines and offers a range of lift heights and capacities up to 2000kgs.
